Course milestone M14: LinkedIn Invitation to Your Poster Presentation

HONR 46400 · Evidence-Driven Research

What to submit

One file, `lastname_m14.pdf`. Everything this milestone asks for goes inside it, as sections in the order below.

Submit it on Brightspace, under **Assignments** then **M14**. Brightspace carries the deadline.

What to do

Your invitation

Publish a professional **LinkedIn post** inviting your network to your poster presentation at the Purdue Fall Undergraduate Research Expo, and submit a screenshot of the published post as your PDF.

Copy these **exactly as the official Expo program lists them**: your poster title, your name (and every co-author's, in an approved group), the date and time of your presentation, and the location. Write in a professional tone, make clear you are presenting at the Expo as part of your research in HONR 46400, and invite people to come. You may add a visual and tag me. If you describe your result, describe it at its true size.

LinkedIn post template (adapt it to your project)

Copy the template below and replace every bracketed placeholder before you publish. Use the official Expo program for the title, names, date, time, and location. For an individual project, list only your name under **Presenter(s)**; for an approved group, list every co-author and change "my" to "our" where needed. Keep the project description in plain language. If you include a finding, state its main limitation or uncertainty as well.

> I am excited to share that I will be presenting my research at the **Purdue Fall Undergraduate Research Expo**! My project was developed in HONR 46400 Evidence-Driven Research at the John Martinson Honors College, mentored by Prof. Davi Moreira.
>
> **Poster title:** [exact title from the official Expo program]
>
> **Presenter(s):** [your full name and every co-author's full name, as listed in the program]
>
> **Date and time:** [your presentation date and time from the program]
>
> **Location:** [building and room or space from the program]
>
> My project explores [your research question and why it matters, in one or two plain-language sentences].
>
> I would be delighted to see you there! Please stop by my poster to talk about what the evidence shows, where it stops, and the questions it raises.
>
> #Purdue #HonorsCollege #UndergraduateResearch #Boilerup

Before publishing, check the program details and replace every placeholder. You may add a visual and, if you would like, tag me: https://www.linkedin.com/in/davimoreira/. Publish the post, then capture the whole published post for your submission.

If you cannot post on LinkedIn, write to me before the deadline and we agree on an alternative public invitation.

How it is graded

On completion: 100 when the post is published with every required element copied exactly from the program; 50 when it is published but an element is missing or does not match; 0 when no post was published.
